

Such a lovely warm and welcoming school.

All teachers and teaching / classroom assistants are a credit to the school

My child is happy and settled in school and enjoys being challenged.

St Michael's Parent Feedback

July 2017

I feel there is a strong community spirit within the school, which I like and feel it is important

The open door policy gives assurance to us parents that no issue is too big or small and any ideas are most welcomed

The school is a loving, welcoming environment. Each day we are welcomed with a smile from all teachers.

The support and encouragement has been phenomenal and we couldn't be prouder as parents.

The children are at the heart of the school

Learning seems to be made fun in school and so our children enjoy it and want to continue. The communication between teachers, school and parents is also excellent.

I love St Michael's School. I think the teachers treat the children with love and respect which in turn encourages the children to want to learn and engage. Real family feel.

A high standard of teaching with an 'I Can' attitude for the children.

A great range of after-school activities.

Teachers always present on the playground at the end of the day.
